

Congratulations  
*Denise Connelly*  
Hope Elementary School

*“Exemplary Technology Instruction”*

*In his nomination, Principal Richard Tubbs states, “Denise understands how technology enhances her teaching by using this tool to engage students. Her most recent endeavor focuses on improving student writing by using her students to create a blog directly on SchoolLoop. We often look outside our own resources to incorporate technology and yet, here is a practical use of an existing program that Mrs. Connelly uses to further advance her students. The parents love reading about updates from the classroom.”*
