My wife was a child in France during the Second World War. Her father's family was nearly eliminated by the Germans because they were Jews. She was kept alive because she was given to a French Catholic family to be taken care of. As a very young child of 5 she just could not understand

why she was not allowed to leave the house to play with the soldiers like all the other children did.

I am looking forward to watching this documentary. It was a time in our world history that we should continue to remember even as horrific as it was. Thanking each and everyone of the students involved, you will be making a mark early in your lives that will be appreciated by many.
